

## Home Learning Tasks

Draw/paint a South American animal of your choice.

Geography: name all the countries which make up South America, draw their flags, find out their population and capital city.

Draw and label a food shop and the items it sells in French.

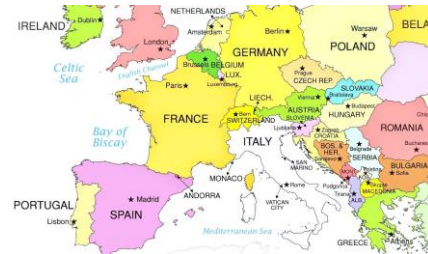

Pick a country in South America. Research the following and then create an information text using your research. This may take a few days.

- Map of the world with the location shown.
- The flag - what do the colours and symbols represent?
- Native food.
- Capital city.
- Population.
- Find three interesting places to visit within the country - describe why they are interesting? Include photographs.

Research and produce a fact file about an animal/plant and how it has adapted to its environment (science)

Learn the countries of Europe and their capital cities.

Make a quiz about a topic of your choice that we are studying.

Make up a family and draw them. Label the characteristics that the offspring have inherited

(science)
