Name : _____ Score : _____

Teacher : _____ Date : _____

Adding Fractions

1) $\frac{1}{4} + \frac{3}{5} + \frac{9}{10} = \frac{5}{20} + \frac{12}{20} + \frac{18}{20} = \frac{35}{20} = \frac{7}{4} = 1\frac{3}{4}$

2) $\frac{2}{3} + \frac{1}{5} + \frac{4}{10} = \frac{20}{30} + \frac{6}{30} + \frac{12}{30} = \frac{38}{30} = \frac{19}{15} = 1\frac{4}{15}$

3) $\frac{3}{10} + \frac{1}{4} + \frac{4}{5} = \frac{6}{20} + \frac{5}{20} + \frac{16}{20} = \frac{27}{20} = 1\frac{7}{20}$

4) $\frac{2}{3} + \frac{3}{5} + \frac{1}{10} = \frac{20}{30} + \frac{18}{30} + \frac{3}{30} = \frac{41}{30} = 1\frac{11}{30}$

5) $\frac{1}{5} + \frac{1}{3} + \frac{1}{2} = \frac{6}{30} + \frac{10}{30} + \frac{15}{30} = \frac{31}{30} = 1\frac{1}{30}$

6) $\frac{4}{10} + \frac{1}{5} + \frac{1}{2} = \frac{4}{10} + \frac{2}{10} + \frac{5}{10} = \frac{11}{10} = 1\frac{1}{10}$

7) $\frac{2}{4} + \frac{1}{5} + \frac{1}{3} = \frac{30}{60} + \frac{12}{60} + \frac{20}{60} = \frac{62}{60} = \frac{31}{30} = 1\frac{1}{30}$

8) $\frac{2}{5} + \frac{3}{4} + \frac{9}{10} = \frac{8}{20} + \frac{15}{20} + \frac{18}{20} = \frac{41}{20} = 2\frac{1}{20}$

9) $\frac{1}{2} + \frac{1}{3} + \frac{3}{4} = \frac{6}{12} + \frac{4}{12} + \frac{9}{12} = \frac{19}{12} = 1\frac{7}{12}$

10) $\frac{2}{3} + \frac{2}{5} + \frac{3}{4} = \frac{40}{60} + \frac{24}{60} + \frac{45}{60} = \frac{109}{60} = 1\frac{49}{60}$

11) $\frac{2}{5} + \frac{4}{10} + \frac{2}{3} = \frac{12}{30} + \frac{12}{30} + \frac{20}{30} = \frac{44}{30} = \frac{22}{15} = 1\frac{7}{15}$

12) $\frac{1}{3} + \frac{4}{5} + \frac{1}{2} = \frac{10}{30} + \frac{24}{30} + \frac{15}{30} = \frac{49}{30} = 1\frac{19}{30}$

13) $\frac{4}{5} + \frac{3}{4} + \frac{1}{2} = \frac{16}{20} + \frac{15}{20} + \frac{10}{20} = \frac{41}{20} = 2\frac{1}{20}$

14) $\frac{9}{10} + \frac{1}{3} + \frac{3}{4} = \frac{54}{60} + \frac{20}{60} + \frac{45}{60} = \frac{119}{60} = 1\frac{59}{60}$

15) $\frac{6}{10} + \frac{1}{5} + \frac{1}{3} = \frac{18}{30} + \frac{6}{30} + \frac{10}{30} = \frac{34}{30} = \frac{17}{15} = 1\frac{2}{15}$
