Table Space-Themed Maths Activity Games

Game 1 - Shuttle Game

Cut out the astronauts. Complete the calculation on each astronaut and then sort them by their answer onto the shuttle. Once you have selected the correct shuttle, stick the astronaut onto the shuttle using a glue stick.

Game 2 - Magnet game

Cut out and attach a paperclip to each astronaut. Use a magnet to select an astronaut. Complete the calculation.

Game 3 - Two-player game

Take turns to select a card. Complete the calculation. Once you have completed the calculation, check your answer. If your calculation is correct, join two of the dots with a horizontal or vertical line and the turn is passed. If the answer is incorrect, the turn is passed to the next player without drawing a line.

During the game, boxes will be made by four lines joining together. The player who draws a line that finishes a four-sided box writes their initials in the box. Each box is worth a point. If a box is made around an astronaut, it counts for five points.

The person with the most points by the end of the game wins.
