Loving one another, building each other up

4th January 2021

Dear Parents

Following the announcement this evening by Boris Johnson we are in the position where we have to close the school to the majority of children from tomorrow. Each class will be open to the children of critical workers (if there is no other option for childcare) and vulnerable children.

As stated in the letter that was sent out today we are only able to take a maximum of 15 children in each class. If your child attended school during the previous lockdown due to the above criteria they are able to attend from tomorrow. If you think your child is in one of the above categories and has not attended during the previous national lockdown, please make contact with the school tomorrow to discuss your situation.

We will contact you again tomorrow with further information about opening of the Pre-School and remote learning.

It is not ideal to have to deal with this at short notice but we thank you for your understanding and support as we try to do our absolute best to keep our school community safe.

Kind regards

Hayley McGoldrick
Head Teacher
