

Sunflower

Sunflower, sunflower
turn toward the sky.
Grow like beanstalk
ten feet high.

Large golden petals
A centre full of seed
Give hungry birds
The food they need.

Remember size and position are important:

aceimnorsuwxz = these should be the same height

bdkhlt = these are ascenders (tall letters)

fgjpqy = these are descenders (go under the line)

abcdefghijklmnopqrstuvwxyz

Look carefully at the orange highlight and the height of the letters.
