

Hollyberries Class Learning Log

Please complete one activity per week. Homework is due to be emailed in by Thursday. The children will have the chance to share any of their homework activities on a Friday afternoon. I hope you have lots of fun working through these! Thank you, Miss Haynes

Ways to learn	A	B	C	D
OUTDOOR LEARNING I enjoy hands on activities	Can you create a den out-side? How will you stay warm and dry?	Outside with an adult, can you use all your senses? Something you can hear, see, touch, smell and maybe even taste?	From learning about the human body, can you create a skeleton out of natural materials such as sticks and rocks?	Imagine you are looking through the window of a submarine, what can you see?
MATHS AND SCIENCE I enjoy working with numbers and science	SNAP! Practice your number bonds to 10. Write the different numbers on cards with a friend. Can you recognise a pair? Do you know them to 20? What about number bonds to another multiple of 10?	Write the numbers 1-10 out in different pieces of paper (go higher if you're confident to 20 and beyond!) Muddle them up. How quickly can you put them in order? What is your fastest time? Did you get quicker?	We are going to be learning about materials how many different materials can you find in your home? Can you sort them into categories of things made from: metal, paper, wood, plastic, glass or stone?	Can you measure your own and the same part of an adults' body? Are they the same or different? What is the difference? You can measure in cm or choose another way.
SHARED LEARNING I enjoy working with others	With an adult, can you learn a Singing Hands song with Makaton sign language on YouTube.	Have a go at making your own homemade pizzas! Can you make some 2D shaped from the dough?	With an adult have a go at making some symmetrical snowflakes out of paper. Fold it in half and make your cuttings down the fold. Is it the same on both sides when you open it up?	Out of some paper or cardboard can you design a shield with a family coat of arms. As a knight, it could protect you from a fire breathing dragon!
CREATIVE LEARNING I enjoy art and designing	Share some of your favourite books with an adult or a friend. Can you act it out? Maybe create some straw puppets? Can you retell the story just looking at pictures, or for an extra challenge, retell the story without any!	Create a collage from autumn leaves. Choose your favourite animal.	Paint a picture of a tree in the autumn and another in the winter. What is the difference?	Use junk modelling to create your own instrument e.g. a yogurt pot and elastic bands.
COMMUNICATION I enjoy reading, writing and speaking	Write and perform a poem about the seasons.	Choose a castle to find out about. Can you write your 5 favourite facts that you have learned? Maybe you'll be able to visit one close by!	Write a postcard about somewhere you went or would like to go in the October half term.	Can you write some instruction of how to bake a cake? Why not follow your own instructions and make some!
SPELLING, PUNCTUATION AND GRAMMAR I enjoy writing	Write a short diary about what you did in the October half term.	Practice some sentences which include the year 1 and 2 common exception words.	Have a go at writing your letter to Santa!	Can you write some adjectives to describe fireworks?
